KleenLine™ Urinal and Commode Mats are perfect for high-traffic restrooms. Their highly-absorbent core quickly soaks up urine, preventing it from seeping through and causing floor damage. By trapping moisture, the mats also stop urine from being tracked through your building and neutralize the odor, keeping your facility cleaner and smelling better.

PRODUCT FEATURES

- » Save Money - Prevents floor damage and costly repairs caused by the uric acid found in urine
- » Reduced Labor Cost - Long lasting, highly absorbent design decreases the number of change outs
- » Effective - Designed to pull moisture away from the mat surface, keeping the urine and odors inside the mat and off of the floor
- » Replacement Reminder - A date tab system provides a visual cue for product change out
