## DIRECTIONS

Recommended for use in recovery tanks of extraction machines or automatic scrubbers where foaming might be a problem. Shake or mix container well before using.

Extractors or Automatic Scrubbers: Initially place 1 oz. of defoamer per gallon capacity of the pick up tank (8 mL/L) 1:128. If carpet is full of shampoo from previous cleanings, more defoamer may be needed.

Sewage Systems or Water Plants: Add defoamer, wait a few minutes for it to disperse, continue until suds subside.
