### ITEM #KL-FCHFB1 (1-QUART BOTTLE - TWELVE PER CASE)

Revives Finished Floors - A blend of polymers, surfactants, and mild solvents that removes all black heel marks and dirt, replacing them with a brilliant shine that will upgrade the original gloss of the finish. Simply spray on floors and polish with spray buff pad. Saves time and money because less frequent recoating is necessary, as well as extending time spans between stripping. Gives high gloss with low usage.

#### PRODUCT FEATURES

- » Versatile - Works with both conventional and high speed equipment
- » Saves labor hour and money - Extends time span between stripping and recoating
- » Provides a high shine finish

## DIRECTIONS

Remove soil and dust mop the floor. Spray a light mist of product on the floor in front of the floor machine. DO NOT OVERWET. Using a nylon or polyester spray buff pad, buff the floor where the fine mist of spray buff has been applied. Flip or change pad as necessary. After spray buffing the floor is completed, dust mop the floor if dust is still present. NOTE: In order for spray buff to work correctly, three or four base coats of floor finish must be applied before using spray buff in order to achieve maximum gloss and wear properties. Heavy traffic areas may require dust mopping, followed by damp mopping, followed by spray buffing. Use of this spray buff will eliminate powdering and will never yellow the floor.

\*This is typical coverage for these products. Actual coverage depends on the porosity and other characteristics of the surface being treated.
